

The Floating Classroom

Come experience "The Floating Classroom" aboard a Voyageur canoe! The Voyageur canoe is the ideal vessel to build teamwork and leadership skills in a real environment. The historic Voyageur canoe is a great tool to gain insight into British Columbia's rich fur trading history and experience our province's dynamic natural environment.

A day spent in a Voyageur canoe is a wonderful platform for hands on learning experiences that directly address the prescribed learning outcomes for the grades 5,6,7 & 8 Social Studies curricula. The day's program can be tailored to meet your specified learning outcomes. Time spent in a Voyageur canoe is a great way to bring students together at the beginning of a new year or as a memorable event to celebrate the end of one!

Come gain an amazing life experience that engages students and teachers alike!
